

# Accu-Lube® Pump Stack/Replacement Kits

## FEATURES

- Positive displacement, pneumatically operated
- Pneumatic timing device (frequency generator)
- Complete independent control of both air flow and lubricant flow on each individual pump
- Modular stacking design allowing easy addition or subtraction of pumps in the field
- Pumps can be grouped together under solenoid control to serve separate machines or tooling operations

## APPLICATIONS

- Where delivery of precise amounts of lubricant to any externally-lubricated application is needed, such as:
  - Milling
  - Drilling
  - Sawing (band & circular)
  - Turning
  - Tapping

## DIRECTIONS

See Accu-Lube Box Applicator installation instructions for installation and maintenance instructions

## HANDLING

Follow standard industrial hygiene practices for handling components and fittings.

## STORAGE

Keep in original packaging until ready to install to avoid losing/misplacing fittings or other parts.

## DISPOSAL

Dispose of in accordance with local regulations.

## AVAILABLE PRODUCTS

Part No.	Container Type
9722A	Single-Stack Aluminum Pump Assembly
9722B	Double-Stack Aluminum Pump Assembly
9722C	3-Stack Aluminum Pump Assembly
9722D	4-Stack Aluminum Pump Assembly
9713	Single-Stack Brass Pump Assembly
9714	Double-Stack Brass Pump Assembly
